PP CREASING MACHINE

SALIENT FEATURES

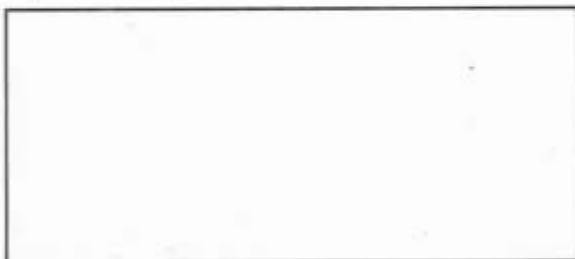

- This machine is designed for creasing of folding line on PP stationery items like files, folders, pockets, etc.
- The toggle press is assisted with hydraulic power pack to generate high pressure.
- The bottom plate and top die plate temperatures are adjustable to suit various thicknesses and types of materials.
- The temperature controlled die coupled with high pressure forms the folding line on PP sheets. Multiple lines with minimum pitch of 17 mm upto maximum of 80 mm can be embossed with one stroke. Timer and material placement gauges are provided for consistency in production.
- Guard is provided on the press for safety of operator. Cartridge heaters can be changed very easily.

SPECIFICATIONS : PP Creasing Machine

• Main Inputs	3.5 KVA at 415 V, 50 Hz 3 Phase
• Hydraulic Pack	1 HP
• Heaters	230 Volts 500 watts - 05 nos.
• Maximum Workpiece size	800 mm X 420 mm
• Timer	0 - 3 secs.
• Dimensions mm :	775 W X 825 D X 1710 H
• Unpacked Wt.	600 Kgs.

Technical data given herein is tentative.
